LeetCode

## Professional Summary

I am a final year Computer Science student with a strong foundation in Data Structures and Algorithms and analytical thinking. I have worked on several real-world projects using technologies like React.js, Node.js, Express.js, NextJS, REST APIs and databases like MongoDB and PostgreSQL and tools like inngest and prisma. Alongside development, I have solved over 200 data structure and algorithm problems on platforms like LeetCode, which has helped me sharpen my coding and logical thinking. I'm currently looking for opportunities internships or entry-level roles where I can learn from real-world challenges, contribute to a team, and grow as a developer.

## Education

**Galgotias College of Engineering and Technology**

*Computer Science & Engineering*

**Shri Daulat Ram Public School**

*Intermediate*

**Aug 2022 - Jul 2026**

*Greater Noida, UP*

**Mar 2019 - May 2021**

*Nangloi, Delhi*

## Technical Skills

- **Programming Languages:** C++, JavaScript (ES6+), HTML5, CSS3
- **Frontend Technologies:** React.js, Redux, Tailwind CSS, DOM Manipulation, Vite, Next.js, Daisy UI
- **Backend Technologies:** Node.js, Express.js, RESTful APIs, JWT Authentication, WebSockets, Socket.io
- **Databases:** PostgreSQL, MongoDB (NoSQL), CRUD Operations, Database Design, Schema Optimization
- **Developer Tools & Platforms:** Git, GitHub, Visual Studio Code, NPM, Render, Postman, Inngest
- **Computer Science Fundamentals:** DSA, OOP, DBMS, Networking (TCP/IP), Agile

## Projects

**STREAMIFY** – *MongoDB, Express.js, React, Node.js, Stream API, Zustand, React Query*

[Live Demo](#)

- Built a full-stack MERN app enabling 1:1 & group chats and HD video calls with Stream APIs, supporting 100+ concurrent users.
- Designed secure authentication & onboarding with JWT & bcrypt.js, reducing login failures by 30%.
- Implemented friend system & smart recommendations, increasing user engagement by 40%.
- Developed a responsive UI with React + Tailwind CSS, improving mobile performance by 25%.
- Delivered RESTful APIs with Express.js, ensuring <200ms average response time.
- Deployed using RENDER, enabling automated CI/CD with zero downtime

**DEVILAI - AI Career Coach**– *Next.js, Prisma, NeonDB, Inngest, Gemini AI*

[Live Demo](#)

- Developed a scalable AI-powered career platform with 4 core features: career guidance, resume builder, cover letter generator, and mock interview tools.
- Integrated Gemini AI to generate personalized content with 90% accuracy and real-time industry insights, updated weekly using Inngest automation.
- Implemented AI-based interview preparation with real-time progress tracking, serving 100+ practice sessions with detailed analytics.
- Built performance dashboard with analytics graphs showing 25% improvement in user interview scores over time.

**Portfolio Website** – *React, JavaScript, TailwindCSS*

[Live Demo](#)

- Developed a fully responsive single-page application with 15+ modular components, boosting development speed by 40%.
- Integrated Nodemailer to handle real-time form submissions with a sub-second response time.
- Attained a perfect Lighthouse score (100/100) in all core metrics: performance, accessibility, best practices, and SEO.

## Achievements

- Solved 200+ DSA problems across LeetCode and other competitive coding platforms.
- Achieved 4th rank in college HackerRank coding contest among 150+ participants.
