LeetCode

Professional Summary

I am a final year Computer Science student with a strong foundation in Data Structures and Algorithms and analytical thinking. I'm currently looking for opportunities internships or entry-level roles where I can learn from real-world challenges, contribute to a team, and grow as a developer.

Education

Galgotias College of Engineering and Technology

Computer Science & Engineering

Shri Daulat Ram Public School

Intermediate

Aug 2022 - Jul 2026

Greater Noida, UP

Mar 2019 - May 2021

Nangloi, Delhi

Technical Skills

- **Programming Languages:** C++, JavaScript (ES6+), HTML5, CSS3
- **Frontend Technologies:** React.js, Redux, Tailwind CSS, DOM Manipulation, Vite, Next.js, Daisy UI
- **Backend Technologies:** Node.js, Express.js, RESTful APIs, JWT Authentication, WebSockets, Socket.io
- **Databases:** PostgreSQL, MongoDB (NoSQL), CRUD Operations, Database Design, Schema Optimization
- **Developer Tools & Platforms:** Git, GitHub, Visual Studio Code, NPM, Render, Postman, Inngest
- **Computer Science Fundamentals:** DSA, OOP, DBMS, Networking (TCP/IP), Agile

Experience

SDE-Intern @BlueStock (Remote)

June 2025 – July 2025 (2months) | [Link](#)

- Worked on converting the official Bluestock company website from Figma design into a fully responsive, production-ready React application.
- Developed multiple React components from Figma mockups, ensuring responsive design with TailwindCSS, Integrated React Router for seamless navigation across pages
- Fully responsive UI compatible with desktop, tablet, and mobile, Interactive navigation with smooth routing and transitions.

Projects

STREAMIFY – MongoDB, Express.js, React, Node.js, Stream API, React Query

[Live Demo](#) | [Code](#)

- Built a full-stack MERN app enabling 1:1 & group chats and HD video calls with Stream APIs, supporting 100+ concurrent users.
- Designed secure authentication & onboarding with JWT & bcrypt.js, reducing login failures by 30%.
- Implemented friend system & smart recommendations, increasing user engagement by 40%.
- Developed a responsive UI with React + Tailwind CSS, improving mobile performance by 25%.
- Delivered RESTful APIs with Express.js, ensuring <200ms average response time.
- Deployed using RENDER, enabling automated CI/CD with zero downtime

DEVILAI - AI Career Coach- Next.js, Prisma, NeonDB, Inngest, Gemini AI

[Live Demo](#) | [Code](#)

- Developed a scalable AI-powered career platform with 4 core features: career guidance, resume builder, cover letter generator, and mock interview tools.
- Integrated Gemini AI to generate personalized content with 90% accuracy and real-time industry insights, updated weekly using Inngest automation.
- Implemented AI-based interview preparation with real-time progress tracking, serving 100+ practice sessions with detailed analytics.
- Built performance dashboard with analytics graphs showing 25% improvement in user interview scores over time.

PORTFOLIO Website - React, JavaScript, TailwindCSS

[Live Demo](#) | [Code](#)

- Developed a fully responsive single-page application with 15+ modular components, boosting development speed by 40%.
- Integrated Nodemailer to handle real-time form submissions with a sub-second response time.
- Attained a perfect Lighthouse score (100/100) in all core metrics: performance, accessibility, best practices, and SEO.

Achievements

- Solved 200+ DSA problems across LeetCode and other competitive coding platforms.
- Qualified Graduate Aptitude Test in Engineering (GATE-CSE) 2025
